Free online training and resources accessible on tablets, pads and smartphones (over secured public or private Wi-Fi). Includes courses with downloadable apps as well as web sites with “responsive” design (mobile-friendly)

- **Absolute Beginners Computer Lab** – Designed using Google Sites for viNGN; 1-hour intro to basic computing concepts with quiz and links to further study. *Request desktop site when using these pages (via viNGN blog).*
- **Code.org** – Home of the Computer Science Education Week Hour of Code, available all year long. Online and no-computer-required courses to introduce students of all ages to programming. Responsive design.
- **Cybrary.it** – Completely FREE, forever, online Cyber Security training. Learn, contribute and join the only free and open source cyber security training community online.
- **EBSCOhost eBooks, periodicals & reference** (via *VirginIslandsPublicLibraries.org* – library card required). Free app available, but web site is responsive design. *Some content such as Flash may not display properly on devices.*
- **GCFLearnFree.org** – These mobile apps allow you to learn Microsoft Office 2010 on the go! For iOS, Android, and Kindle.
- **Internet Starter Kit** – Designed using Google Sites for viNGN; 1-hour advanced tutorial on computing, Internet, security, web sites and social media. *Request desktop site when using these pages (via viNGN blog).*
- **KhanAcademy** – Academic and scientific study using the responsive web site. Includes math, science, history, English, SAT and professional test preparation. Or use Android and iOS apps.
- **SCORE Library** – Service Corps of Retired Executives (SCORE) provides free, expert business counseling and advice for small businesses as well as live and recorded webinars.
- **TED.com** – Technology, Entertainment and Design (TED) has grown from informal gatherings to an international forum for “Ideas Worth Spreading” – videos are inspirational, educational and diverse.
- **Unite for Literacy** – Free children’s e-Books online may be accessed on a computer or Internet-connected mobile device. Read along or allow the book to read to your child.
